

MCPHS UNIVERSITY SCHOOL OF PHARMACY-BOSTON STRATEGIC PLAN 2016-2019

Initiative 1. Provide relevant, innovative and progressive educational opportunities

Goals:

- Deliver a dynamic curriculum that prepares graduates to assume present and evolving roles in the profession
- Enhance the resources and infrastructure to advance the educational mission of the school
- Provide innovative experiential experiences that promote the expanding practice of pharmacy in the health care team
- Enhance interprofessional (IPE) opportunities throughout the curriculum
- Expand opportunities for post graduate training with a variety of residencies and fellowships

Initiative 2. Promote excellence through assessment with continuous quality improvement

Goals:

- Provide greater resources to strengthen the assessment of academic programs
- Expand technological access to assessment tools
- Promote a culture of assessment throughout all programs

Initiative 3. Expand opportunities for leadership, entrepreneurship, and community involvement

Goals:

- Promote and support faculty and student professional leadership roles
- Encourage business plan opportunities that enhance the role of pharmacy
- Increase pharmacy participation in public health programs
